How do you earn SPURT?

It is not so hard to earn SPURT. There are several ways to do so. For example if you advertise SPURT you would earn on each person who opens a SPURT account with Euro and SPURT. Normally a SPURT account would cost € 50 but we are willing to make a special deal for people in countries where you earn less. If you are interested, you can explore rules and regulations at a later time.

Sell production for one year.

You can find people who would sell their future production to SPURT. These products or services would be offered in the MySPURT Shop for sale to all SPURT clients. The vendor will be paid immediately in SPURT 150% of the value of the products/Services he is selling. He would deliver the product after he used his SPURT or after he received the currency of choice. Remember, you will not be able to exchange SPURT into EURO (SPURT is not a bank), but you can buy things in the Shop, pay with SPURT, resell it and get paid in the currency of choice.

Clients selling their production to SPURT can also use their SPURT for purchases and other functions within their business. To encourage them to do business using their SPURT, instead of converting it to EURO, they will be compensated 100% for the SPURT used to do business with others, like buying their material from another Vendor. (This is a temporary offer.)

There will be a small fee, 2%, in EURO for selling the products to SPURT, but 50% of this fee will be used to pay people referring the business in EURO.

Besides that they will earn, in SPURT, 2% of the sold amount on their SPURT account immediately. This means that with a total production of € 500.000 you would earn 10.000 SPURT.

We can create a country-specific community within the system directed to your country. The language can be added too, but we need your help to do so.

I offer a job.

Businesses and private people can take part in the "I offer a Job" program under "Making Cash Money" on www.soundprosperity.org. In doing so you pay €120.-- per person you want to hire. This person would earn, during one year, each month 3,750 SPURT for referring other people. You would earn once-off the value of 11,250 SPURT plus €30.-- on your PayPal account.

How can you earn EURO?

- By referring someone from a country where people do not earn a lot (people might pay €10.-- and you would earn €2.50).
- Referring people in those countries to the "I offer a Job" program would bring you €15.--.
- If you refer business selling their future production, you would earn 1‰ of the total sold production. This means that for a yearly production of €100.000 Euro you would earn €100.--.

What kind of products/services are accepted?

Any product that is good for mankind and the environment.

Services can also be:

- Care taking
- Voluntary work
- Mediation of Jobs

When can we start?

We can start as soon as businesses are selling their production for you to buy.
