

SPURT PLUS (SPU+)

Procedure to Open an SPU+ Wallet

1. Use Google Chrome Web Browser.
2. Go to Google Search.
3. Search for Google Extensions.
4. Once in Google Extensions search for Metamask.
5. Download the Metamask Add On on the Chrome Bar.
6. Open the Metamask by pressing on it.
7. Write a password and save it.
8. Accept terms and conditions.
9. Follow instructions on Metamask.
10. You already have an Ethereum Account, once Account 1 shows.
11. To check your Account Address, (Number), press on the three bold horizontal dots next to Account 1.
12. Press show QR Code, at the bottom of the code there is an Alpha-Numeric Address copy and save it. This is your Address. This address is the one to send to others to make transactions.
13. You can also print it.

Be careful to send address only not private key.

To add the SPU+ Token Symbol do the following.

1. Open Metamask or return to Account 1.
2. Press on Tokens.
3. Press on the Orange rectangle ADD NEW TOKEN.
4. A pop questionnaire will appear. (See picture below). Fill out the questionnaire.
